

<sup>\*</sup>For pregnant women who have a fetus with prenatal ultrasound findings consistent with congenital Zika virus infection, and who live in or have traveled to an area with ongoing Zika virus transmission, refer to <a href="https://www.cdc.gov/zika/hc-providers/testing-guidance.html">www.cdc.gov/zika/hc-providers/testing-guidance.html</a> for further guidance.

\*\*Zika virus IqM testing is not routinely recommended due to the long term persistence of antibodies following infection.
