If clinically indicated, consider further testing to include glycosaminoglycan analysis in blood (MCL test MPSBS or MPSEB) or urine (MCL test MPSQU) and/or confirmation by molecular genetic analysis of the ARSB gene (MCL test CGPH, gene list ID: IEMCP-QQF7DP). Please contact the Biochemical Genetics consultant or genetic counselor on call (1-800-533-1710) if you have any questions.
