**Oligosaccharide Screen, U**

1 MCR

\*POSITIVE\* In this urine sample, the oligosaccharide profile is consistent with a biochemical diagnosis of alpha-Mannosidosis. We recommend confirmatory testing by analysis of alpha-mannosidase activity in leukocytes (MCL test MANN) and molecular genetic analysis of the MAN2B1 gene. Please contact the Biochemical Genetics consultant or genetic counselor on call (1-800-533-1710) if you have any questions.

**ADDITIONAL INFORMATION**

Matrix-assisted laser desorption ionization time-of-flight mass spectrometry (MALDI-TOF MS)

**Received:** 31 Jul 2019 15:10

**Reported:** 31 Jul 2019 15:11

**Laboratory Notes**

- 1 This test was developed and its performance characteristics determined by Mayo Clinic in a manner consistent with CLIA requirements. This test has not been cleared or approved by the U.S. Food and Drug Administration.
